Excerpt:

A big cellular thing designed by Nervous System. Use this as a lampshade for an LED light or as a sculpture.

Description:

Many people have printed our bracelets, so we decided to give you something bigger.

Here's the model on Cell Cycle: <http://n-e-r-v-o-u-s.com/cellCycle/?l=4276>

To add light to the lamp, you can use any LED fixture you like. We like this one: <http://www.elementalLED.com/super-bright-led-module-light.html>

If you can, please use the online documentation found at <http://www.youmagine.com/designs/cellular-lamp> because those may have been updated. Also, there you can interact and provide praise and/or feedback.
